

## Technical Specification

### K-MGB 120L – 2-Wheel bin with lid

#### Compact and universally usable

- Capacity 120 l
- Lightweight of approximately 11.0Kg
- Equipped with one piece grip along the back
- Flat surface interior walls: easy to clean and therefore especially hygienic
- Low-noise during filling and emptying
- Suitable for front loading (as per DIN)

#### Materials and Design

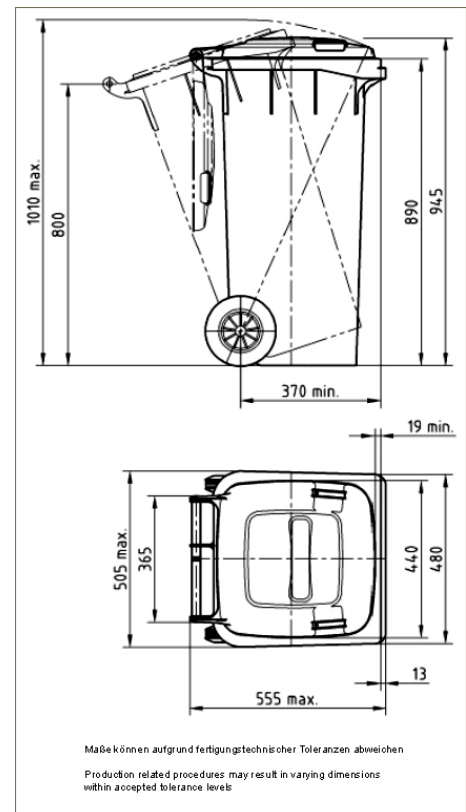

- All plastic parts made of high-molecular high-density polyethylene
- Uniform, environmentally-friendly colouring materials are available for all popular bin colours.
- Customer colours available on request.
- Resistant to rotting, frost, heat and chemicals and are non-ageing due to special UV stabilisation.
- Series MGB 80, MGB 120 and MGB 240 fulfil European Standards EN 840-1/840-5 and 840-6.
- MGB 60, MGB 80, MGB 120 and MGB 240 fulfil the AWB quality guideline requirements.
- The material and production qualities are constantly monitored in SULO laboratory in accordance with EN 840-5. The health and safety requirements comply with EN 840-6.
- The bins are easily recyclable.
- Front edge of bin has supporting and guiding ribs and special ribbing to withstand high mechanical loads
- Special stacking ribs prevent jamming when bins are stacked.
- Dual angle rail for more secure tipping.
- Lid with drip rim: Condensate drips back into the bin.
- Open wheel case prevents accumulation of dirt.
- Wheels on outside of bin result in excellent stability.
- Quiet running, full rubber wheels with diameter of 200mm.
- Load capacity per wheel 1000N.
- Wheel fixed using spring-loaded steel pin on a galvanised steel axle.
- Bins made of recycled material are also available.

#### Additional Equipment and Accessories

- Designed to be fitted with an electronic chip for identification and weighing systems.
- Containers designed to be fitted with the SULO gravity lock to prevent misuse (lid opens automatically for emptying and locks itself again when it falls shut).
- Special lid variations with openings for depositing used glass or paper.

#### Stamps and Markings

- SULO lettering.
- Registered trademark "MGB-System"
- Year of manufacture
- Nominal capacity
- Maximum authorised total mass
- Possibility of individual markings using stamps, screen printing, hot press stamping and labels
- Quality seal
