

### Envoy Recycling Bins

Envoy D-shaped recycling bins are designed to take up minimal space. With a variety of apertures, dividers and applications, the Envoy recycling bin range provides a co-ordinated one-stop solution for your recycling needs. With the option of either a 110 litre or 90 litre bin throughout the range, Envoy can accommodate a large volume of waste to reduce the need for frequent emptying. Available in a wide range of colours to co-ordinate with any environment.

### Personalisation

To help maintain a high profile, many organisations are benefiting from our special product personalisation service. Most Glasdon recycling bins can be personalised with your name, logo or message to create a stylish and effective promotional medium. For more information please telephone 01253 600410.

### Envoy Configurations

The unique D-shape of Envoy recycling bins offers the choice of siting them flush against walls, back-to-back or in a cluster of three configuration to form a mini recycling centre. This option makes Envoy an extremely versatile choice for recycling collection.
